Simplify the World

About Di

Our journey started from the year 2007 as a software training and service company. In 2009, we achieved a great milestone as entered into a software development industry. By imbibing the rapidly evolving world of technology we achieved 100% satisfaction of customers in each and every moments of their operation. This is our energy to improve ourself and became the challenging competitor in the software industry.

Our innovative solutions create our own identity among the customers and Di vibrant team always passionate to bring 'new' to the market. We always work as 'one' to achieve our customer need and requirement to deliver world class quality solutions.

After a lot of success stories, we incorporated in the year 2015 as Datasys Inventure Pvt. Ltd. Our satisfied customers spread in 28 countries around the world and its expanding.

Datasys Inventure global office expected to open in Middle East and Continental office in Africa by end of 2015. Our research and development team always committed to bring most innovative product to the market for improving operational efficiency of an organization. Di passionate to bring one click solution and it will create new workculture in the world.

We promise to "simplify the world".

Di Products

In today's world, administration and management of an organisation, particularly educational sector, has become a tedious and complex task. It requires careful planning, systematic approach and accurate control of administrative process. In this technological era, we need to adopt more innovative methods in our educational system to attract maximum number of students to the organisation.

Are you ready to move your business forward? Let us show you how Fortune 4.0 ERP can enable you to accelerate your business growth in a more efficient manner while reducing costs, better serving your customers, and step ahead of the competition

Sur+ is the only small scale business designated software added progress to 100,000+ customers around the world. The unique way of development differentiates Sur+ from all other business software. Ongoing feedback from our existing customers enables us to continually improve the system ensuring your business has access to the latest advancements in technology when you need them.

Di Clients

Working for our client's success and making sure they obtain tangible benefits from cooperating with Datasys are the goals we endeavor to achieve first and foremost. When working with us our clients expect to be dealt with professionally, responsibly and constructively and our team works as one to make sure these expectations are always met or, better still, exceeded. What is more, we believe that trust is one of the key factors to successful and long-lasting cooperation, so we work hard to establish and uphold trustworthy relationships with our each and every client.
